

**OPALAND**  
White Paper v1.0

At the last point where science and technology reach people, people are now connecting with the world through advanced devices. Shopping at a market, renting a car, making music... everything is close enough to fit in our palms.

According to research, around 78% of the world's population spends at least a quarter of their day using their mobile devices or laptops and desktops. They use most of this time to have fun or to discover new content.

As OPALAND, we promise people the brand new fun and profitable side of METAVERSE with the tools they use constantly. Imagine if the mobile devices you use for a few hours a day will connect you to a fun and profitable world.

In OPALAND, time is not just about time anymore. Time = time + money!

## OPALMINE

The non-functional NFT period leaves its place to functional NFTs. Unique OPALMINER NFTs designed for OPALAND offer you both fun and profit together.

The OPALAND ecosystem is built on a metaverse world. Use OPALMINE, our unique mining program on Opaland. In the ecosystem we have built, you will own 4 different NFTs and OPAL mines with different properties. You can convert the OPAL stones you dig into OPAL TOKEN. And we do this without exploiting the world's energy. Along with the partnerships we have planned, you can also earn different tokens from our mines.

## NFT MINING

The NFTs you will have in the OPALMINE mining application will work for you like an Opal Stone mine. We design in a very understandable way. There is a fixed supply of pools designated for each month. And every month the OPAL tokens left in the pool will be burned. All mining pools will be completed within 24 months. All OPAL tokens will be burned except the OPAL tokens mined by miners. Also, users who own these NFTs will have several benefits when using our other applications to be built in the future. And in the future, tokens of projects that partner with us will also be added to mining pools. You will not have to pay any extra NFT fees to earn these tokens.

# OPALMINE MINING ECONOMY

TOTAL MINING POOL

24.000.000 OPAL

MONTHLY INCOME

**RED MINER** (500 pieces)

POOL

12.000.000 OPAL

1.000 OPAL TOKENS PER MOUNTH

**YELLOW MINER** (500 pieces)

POOL

7.000.000 OPAL

500 OPAL TOKENS PER MOUNTH

**BLUE MINER** (1.000 pieces)

POOL

4.000.000 OPAL

200 OPAL TOKENS PER MOUNTH

**TURQUOISE MINER** (1.000 pieces) - AIRDROP

POOL

1.000.000 OPAL

20 OPAL TOKENS PER MOUNTH

## OPALYMPICS

Every day, we bring together the mini games played by millions of people on their mobile devices in a challenge arena. We provide users to earn tokens with the logic of "Challenge and Win", not just to have fun.

You can find arrow shooting, Basketball, Football, Bowling, Tennis and many more sports games in OPALYMPICS.

## OPALCART

Another fun-win application of the Opaland ecosystem is OPALCART. Participate in tournaments in our gokart game, overcome obstacles and collect OPAL icons.

## OPALIVE

Are you ready for the wonderful METAVERSE FESTIVALS? We bring real-world music festivals to METAVERSE. With the augmented virtual reality experience, you can attend a concert or festival on the other side of the world without leaving your home or office. In our system that provides 360 degree simultaneous view, you will be teleported to the middle of the entertainment by using your virtual reality glasses that can detect your movements.

# OPALSWAP

Undoubtedly, like everyone who has a claim to build the future, we also build our ecosystem on decentralization. Trade, stake and farm in OPALSWAP to keep winning.

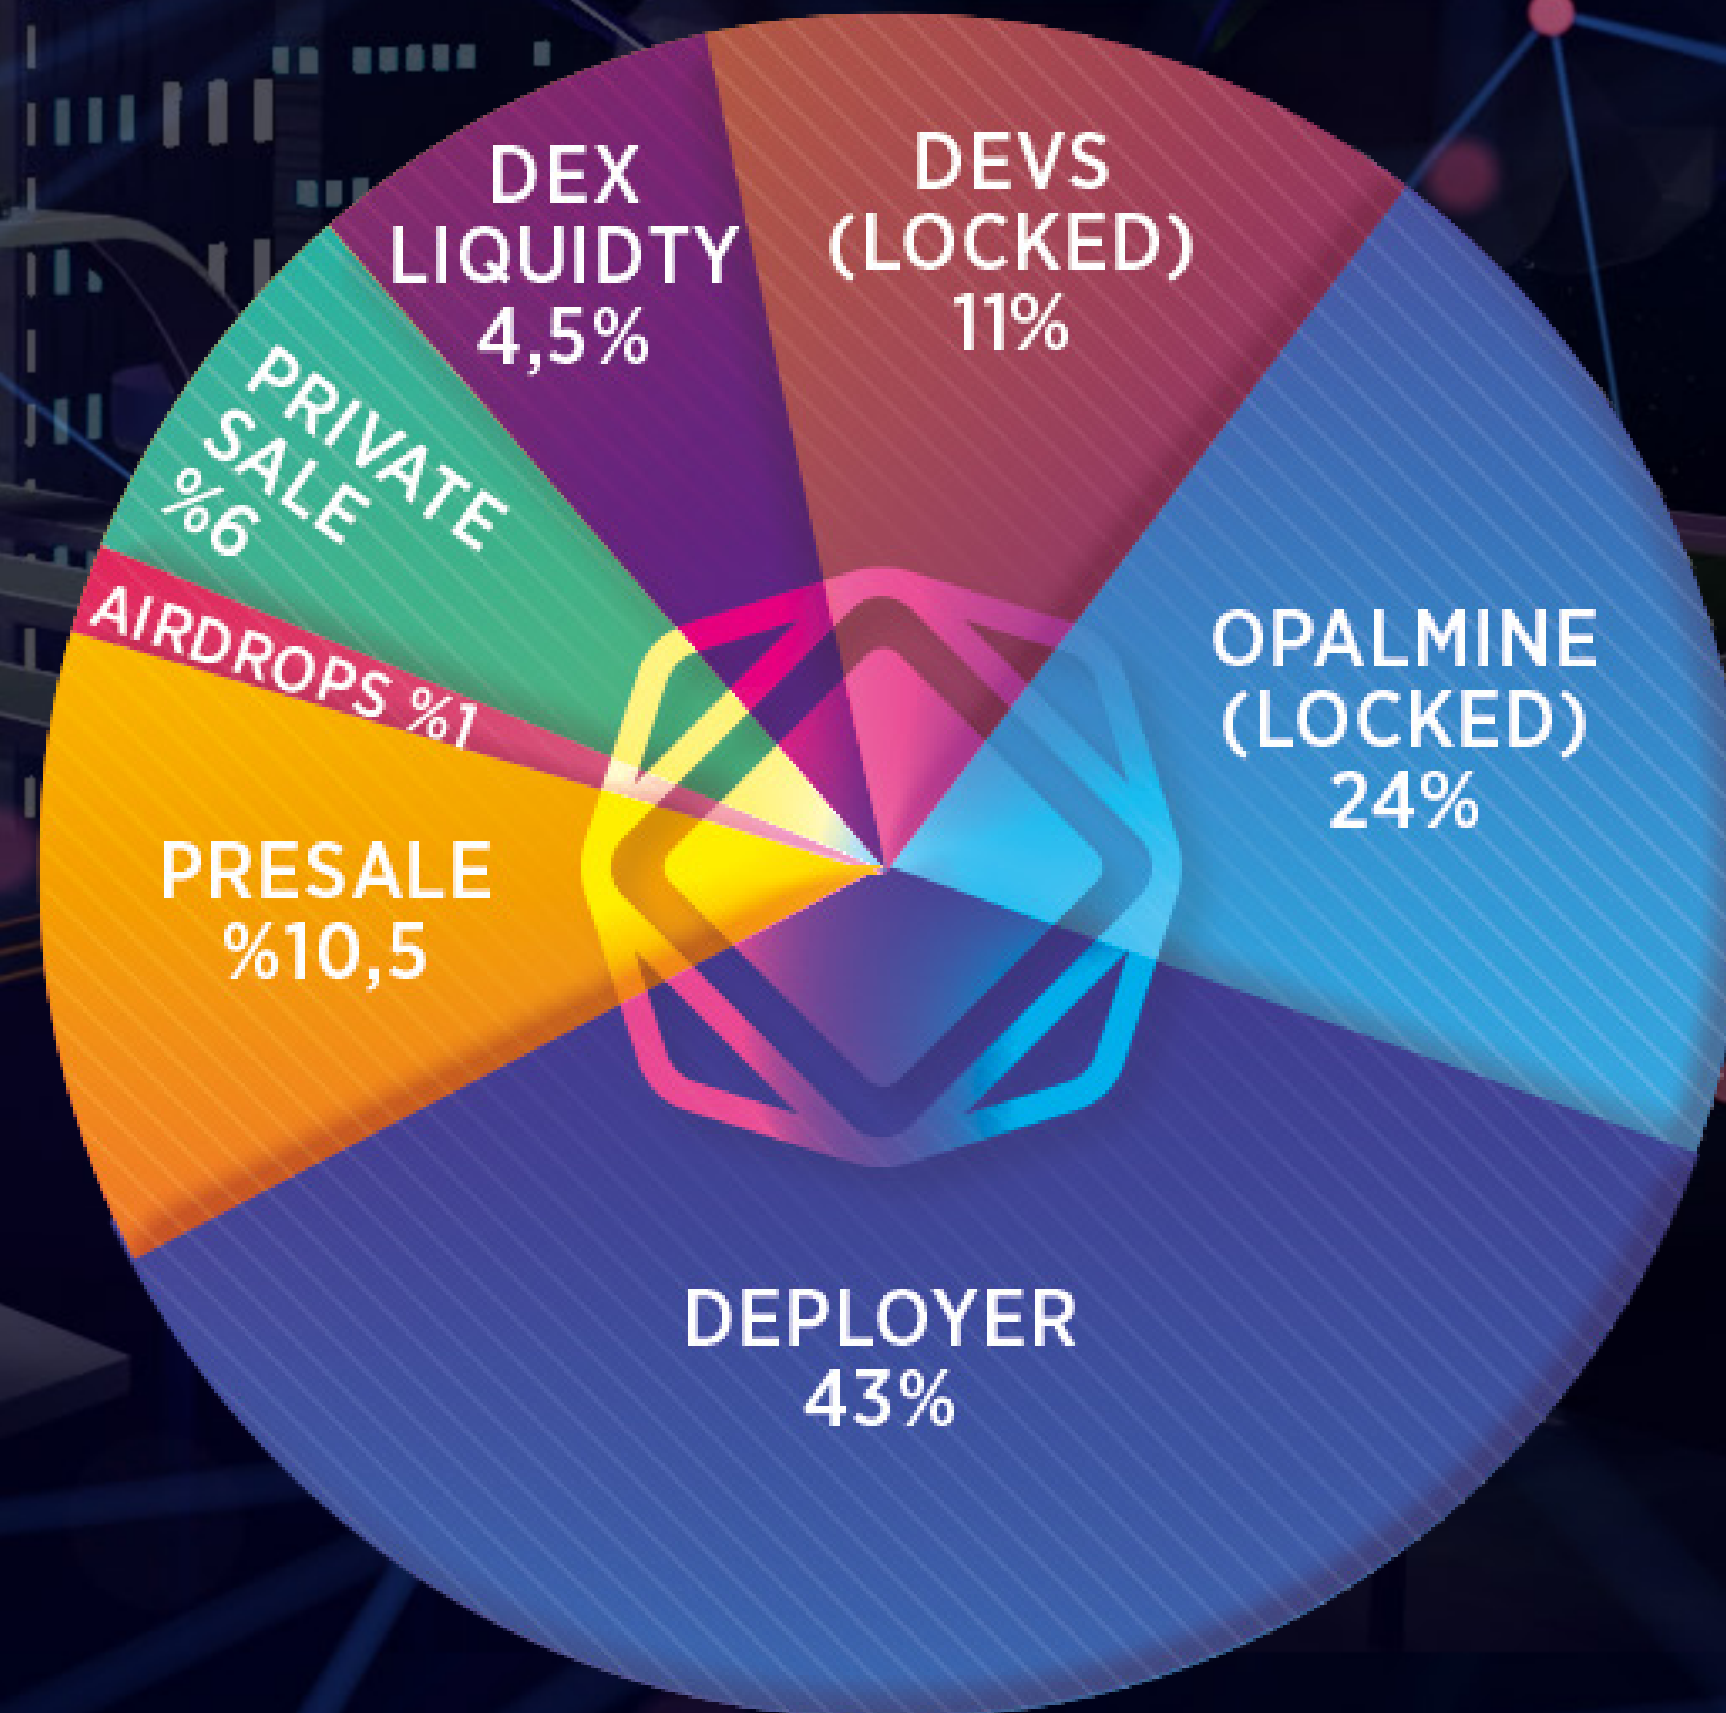

## OPAL TOKEN

OPAL TOKEN is the currency we developed for OPALAND. We were inspired by the OPAL STONE, which becomes a precious stone only when the diamond is worked by hands. With a total supply of 100 million units, OPAL is a deflationary token with its limited supply, as well as the burning mechanism we developed with the OPALMINE application and OPALYMPICS games.

# OPALAND ECOSYSTEM STARTING ECONOMY

<b>TOKEN NAME</b>	OPAL
<b>TOTAL SUPPLY</b>	100.000.000
<b>PRIVATE SALE</b>	6.000.000
<b>PRESALE</b>	10.500.000
<b>DEX LIQUIDITY</b>	4.500.000
<b>OPALMINE</b> LOCKED FOR 3 MONTHS	24.000.000
<b>DEVS</b> LOCKED FOR 24 MONTHS	11.000.000
<b>DEPLOYER</b>	43.000.000
<b>AIRDROPS</b>	1.000.000
